

HEADTEACHER COMMENT OF THE WEEK

This week our children year one had a visit from Mary Secole. The children enjoyed asking her a range of questions. Also our year one children have been excited to talk about their art project. I can't wait to see the results.

Our year six children are enjoying their graduation project. The focus of this week has been a famous person from history. I wonder who they've chosen?

On Thursday and Friday I met with groups of children to talk about mathematics. The children were really confident to explain the mathematical knowledge that they had learned. I was really impressed with how are you one pupils were able to respond to questions quickly. The children could recall mathematics they had used a few weeks ago.

Last week children were completing their puma and pira tests for English and mathematics. I'm really pleased to see how much progress the children have made since returning to school in March. Our interventions and one-to-one support for pupils is showing strong impact. The children have applied their knowledge confidently and were able to explain their methods.

Today our year four pupils have taken a step back in time. The lesson this morning was super and our staff really enjoyed teaching this area of history. Take a look at the photos on Twitter. Finally, I'm pleased to inform you that the start and end times of the day will revert back to 8.50am and 3.30pm for all children from reception to year six, starting Monday 7th June.

Hope you all have a lovely half term. Take care and stay safe. See you all very soon

Mrs M Lathbury-Cox

COMMUNITY NEWS

Half term friendly free activity

Bicycle lessons and safety rides 9.30am to 12.30pm each of the following dates

Saturday 29 May

Thursday 3 June

Saturday 5 June
