

Welcome back. It's been such a great start to the term. The children are excited about the curriculum on offer this term and are enjoying being back in school with their peers. All classes have settled back into work and are making strong progress already. In a short space of time I can see in their books that they are keen to always do their best and are taking pride in their work.

Our youngest children have settled particularly well and enjoying contributing to our floor books. Miss Turley and our EYFS team can tell you more about this new way of capturing what the children do each day.

All of our children look really smart in their school uniform and are proud to be part of Reedswood.

On return we have reminded all children about behaviour and safety in our assemblies. As you know we have clear behaviour expectations that were focused by myself and the children. These are agreed by everyone.

In all classes we have our cloud system for our behaviour which encourages a fresh start and follows a behaviour recovery model. This is linked to our reward system too where the children gain points/coins to spend in our shop

In my first assembly back I reminded all children too about our whole school values. The children and staff embed these in everything we do.

It's been fantastic to see everyone back and our first assembly together was a great feeling. I'm pleased to say that our praise assemblies are also reinstated and it's been great to see so many of you attending these.

This week saw the start of after school online booster sessions for year two. If you would like your child to join, please see their class teacher. Online sessions for other year groups will start w/c 27 September, please see our website for the full timetable.

Well done to 5HF this week for achieving 99.62% attendance, keep up the great work!

In a morning we are always available to catch up outside and it's been super talking to so many of you.

I look forward to continuing to work with you over the coming term
